

COMPANY PROFILE

OUR EXPERIENCE

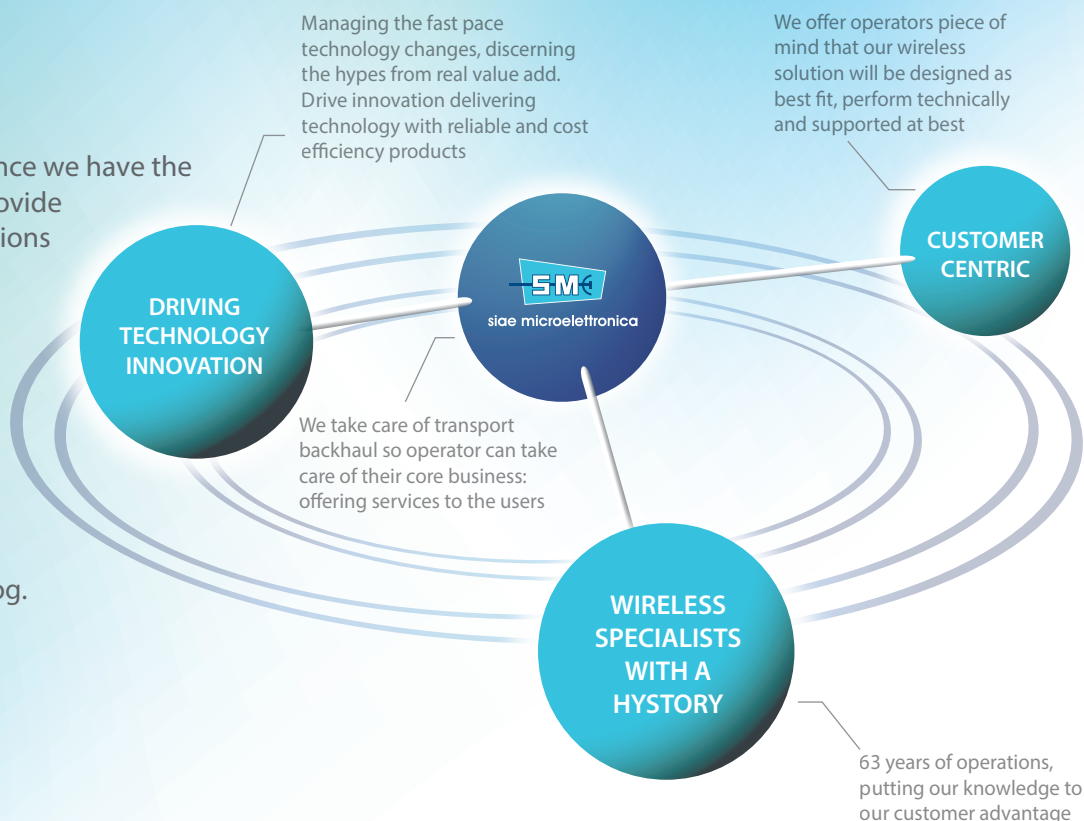

YOUR ADVANTAGE

siae microelettronica

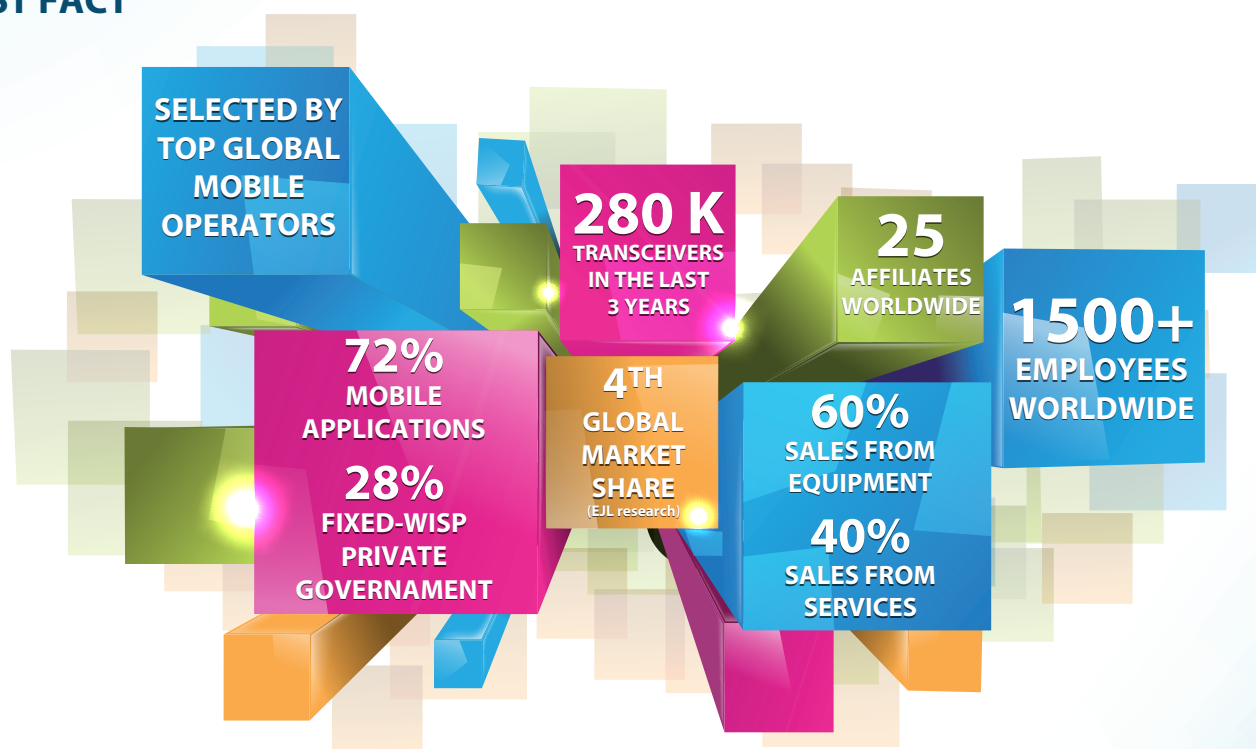

SIAE MICROELETTRONICA LEADING PROVIDER OF BEST PERFORMING RADIO AND WIRELESS NETWORK SOLUTIONS

With 63 years of experience we have the skills and flexibility to provide optimized network solutions that match your needs. Starting from network planning, through project management, delivery and implementation, including after sales support, a complete made to fit service catalog.

Constantly gaining market share for over 8 years with positive financial growth, siae microelettronica is the best positioned and stable microwave specialist in the market. With the most balanced split of revenues between hardware and services among specialists and a track proven mobile pedigree. Siae microelettronica is selected by the biggest global mobile operators to implement their wireless transport networks.

FAST FACT

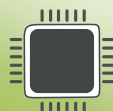

MICROWAVE TRANSMISSION

- Lowest Power Consumption In The Market
- 1st 4096 QAM System FO
- RF Multicore Solution 2x80/112 Mhz Channels
- Millimeter wave at 10 Gbps
- Native SDN Support

MICROELECTRONICS

- In-House Manufacturing & Prototyping
- Advanced RF design,
- GaAs and Si Integrated Circuit Design
- SIP Technology
- Advanced Automated Testing

OPTICAL TRANSMISSION

sm^{optics}

- Network Optimization
- Network Transformation

SERVICE AS A PRODUCT

- Professional Services
- Plan & Design
- Maintenance and Support
- Build, Deploy and Integrate
- Competence Enabling: Training

SYSTEM INTEGRATOR

- Multi-technology Integration
- Project Management
- Complex Network Design

With the in-house RF and microelectronics capabilities, we design key components to fit our microwave radio, ensuring highest quality, extended product life cycle, highest level of integration and best performances in terms of power consumption and transmission behavior. Placing our customer needs at the centre of the design process.
