## RENEWABLE ENERGIES

Logistics adapted to the energies of the future, mainly focused in solar and wind power sectors. Our customers include the module and structure manufacturers, power inverters, transformers, cable, turbines, blades, etc. to EPCs, construction and engineering companies.

-  We simplify the logistics process, enabling a complete and permanent visibility.
-  We ensure the right planning and execution of logistics projects from the beginning to the end.
-  Full control with our local experts in the major supplying and destination countries of renewable energy facilities.

**4PL LOGISTIC, International Turnkey project logistics providers mainly for gas-oil, energy factories and EPC contractors**

**Complete export/import documentation, survey report, licensing, permits, and customs clearance process**

**Complete logistic for equipment-plant relocation projects, including disassemble of equipment, packing, external-internal sea fastening, international transportation and set up operations at destination**

**Deliver an integrated operational and commercial solution**

**Determine operation schedule solution**

**Inform critical logistic factors for the project**

**Build a team with strategic partners which are the most suitable for the project requirements**

**Establish operational/administrative procedure for the operation**
